

# Portable Slap & Track

MultiTrack

4 month rechargeable tracking system

Track anything with this affordable, quick installing, self-powered covert tracking solution

## Advantages as Slap & track

- Up to 16 weeks of life on fully charged battery
- Battery charges in 3 hours via wall plug
- Self contained with internal antenna, no wires to run
- Needs little to no sky view to track
- Text and email alerts of movement outside of your defined hours
- Easy to move from asset to asset
- Compact, waterproof form factor
- Rugged SAE J1455 compliant design for harsh environments
- Trailer tethering option to recharge when trailer is hitched
- 3 axis accelerometer for movement sensing with low power draw
- Single display alongside Titan, Skyhawk & Trackall equipped assets
- Seasonal billing options
- 24/7 Technical Support

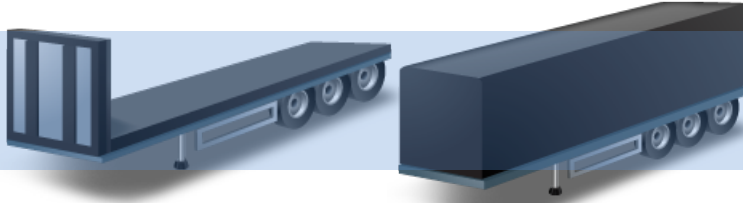

**Trailer Tracking Option Included** Tethering allows the unit to recharge via tail lights whenever the trailer is hitched

Track any asset with or without a battery

Portable for redeployment and fast charging

Receive curfew and location alerts

# Trailer Tracking

## Two Solutions in One Unit

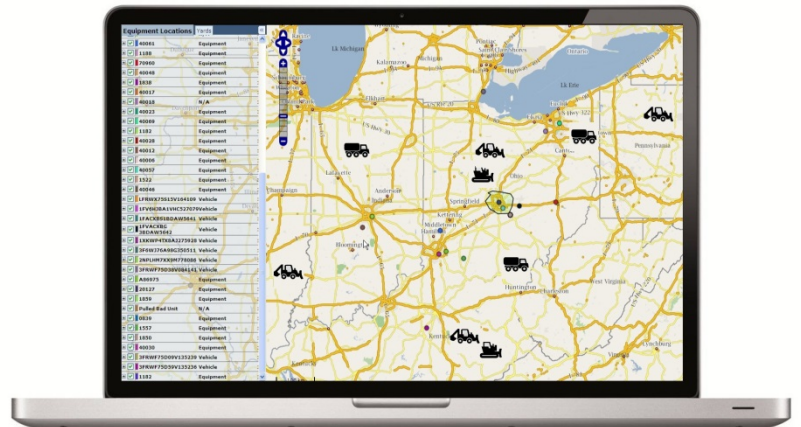

### Advantages as a Trailer Tracker

- Up to 16 weeks of life on fully charged battery
- Battery charges in 3 hours via tail light power when hitched
- Text and email alerts of movement outside of your defined hours
- Tow alerts indicate untethered movement
- Needs little to no sky view to track
- Instantaneous speeding alerts
- Rugged SAE J1455 compliant design for harsh environments
- Compact, waterproof form factor
- Internal cellular and GPS antenna
- 3 axis accelerometer for movement sensing with low power draw
- Single display alongside Titan, Skyhawk & Trackall equipped assets
- Seasonal billing options
- 24/7 Technical Support

An optional harness transforms the system into a trailer tracking solution. Whenever the trailer is hitched the unit will charge, and use its own internal battery when unhitched.

*Map and manage your MultiTrack units alongside your Titan, Skyhawk & Trackall equipped assets in the same software.*

**Slap & Track** The unit is completely self contained and can be installed without the trailer cable, so you are free to move it from one asset to another with minimal time investment
